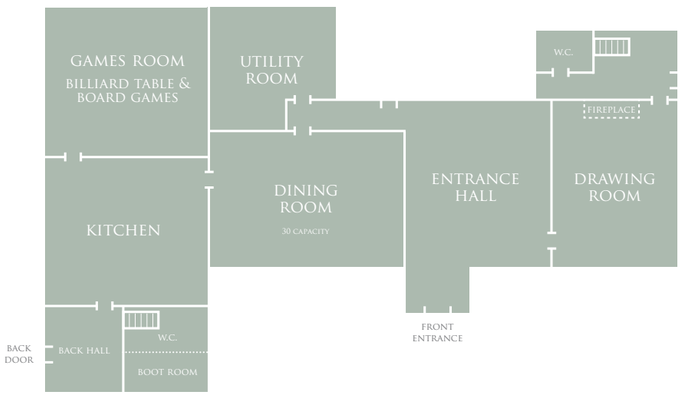
The HALL

TWELVE BEDROOMS

Twelve-bedroomed Bruisyard Hall is a glorious home from home, perfect for any corporate retreat, intimate dinner or wellness stay.

You can relax over a prolonged breakfast in the Hall's large domestic kitchen or kick back in the drawing room, enjoy a summer barbecue on the side lawn, and take advantage of the grand and spacious dining room for daytime meetings and evening dining with your team.



The newly renovated Byre adds three additional en suite bedrooms to the Estate, and has a wonderful courtyard that's perfect for al fresco dining and post-meeting relaxation.

Behind the Hall is a peaceful lake and further out you'll find meadows full of wildflowers, rolling green fields and plenty of shady wooded areas. It's ideal for casual strolls or a morning jog before the day's activities begin.

The BARN

17TH CENTURY

Our 17th century Barn stands with the Hall at the heart of Bruisyard Country Estate.

The two-storey timber framed building has been meticulously restored and is now a beautiful exclusive-use venue for events and conferences.

There is also a separate galleried event anteroom, bar and a courtyard with seating and wildflower gardens. The barn is equipped with an integrated PA system and projector with an automated screen suitable for presentations and speeches.
